

Back To Basics Workshop

A networking and workshop opportunity for ACCESS funded centres

ACCESS for Children First will conduct a Back to Basics workshop focused on providing practical strategies for support staff working with children diagnosed along the Autistic Spectrum. The workshop will introduce the theoretical research basis and present practical applications across a wide range of disciplines.

Workshop presenters:

- **Chih-Chi Lee – Behavioural Optometrist**
Chih-Chi will explore the visual system and its impact upon learning, concentration & engagement in activities.
- **Julie Bawden – Director of Marayong Preschool**
Julie offers a wealth of knowledge derived from her many years working to support children with Autism. As a result, Julie has established effective strategies, visuals and resources – all of which will be on display and their implementation explored.
- **Children First - The Learning Support Programme (LSP)**
The LSP team includes speech and occupational therapists, each offering a large range of skills and resources in the field of Autism. This presentation will involve working through scenarios and offering the strategies to engage individual children.
- **Northcott – Presenting the P.L.A.Y Project**
An overview of the Play and Language for Autistic Youngsters project will be provided, offering a history of the development and benefits; implementation for families and preschool staff will be demonstrated.

ACCESS is subsidising this workshop to make it affordable and accessible to all our centres
